

VESSEL DETAILS

WEOTT II is one of our most versatile vessels, featuring a double-floor interior, both heated, that can be customised to suit your event's specific requirements. The vessel will be tastefully decorated with seasonal flowers and other decor items to create a lasting impression as you and your guests arrive.

The main floor comfortably accommodates a large seated dinner setup, but we can also rearrange the space by removing tables and adjusting chairs to create a more informal setting. Expansive windows offer captivating views of London's unique skyline, ensuring your private cruise offers breathtaking vistas throughout the event.

WEOTT II boasts a spacious outdoor deck spanning the entire roof of the vessel, providing an exceptional space to appreciate the stunning surroundings. We also furnish this area with an outdoor lounge setup, complete with blankets and umbrellas, so you and your guests can still enjoy the outdoor section in case of chilly or wet weather. As the sun sets, the outdoor fairy lights and lanterns create a magical atmosphere.

Capable of hosting a wide variety of events throughout the autumn and winter period, WEOTT II offers the perfect venue for your upcoming plans, no matter the occasion.
