

VESSEL DETAILS

Our WEOTT III boasts a spacious, heated two-level interior that can be customised to suit your function's specific requirements. Large windows on both floors provide your guests with breathtaking views during your private cruise. We adorn all indoor areas with seasonal flowers and other decor items, and we're happy to add additional touches like branding to align with your company's theme.

The first floor boasts a high-spec sound system, ideal for entertainment or speeches, while the ground floor offers a comfortable dining area for a delicious sit-down meal. For larger groups, we offer flexibility, including the option to add more seating on the first floor or remove lower-floor seating and tables to create a larger standing or reception area.

Guests can enjoy drinks and mingle on two outdoor decks, taking in iconic London landmarks as you cruise along the Thames. We provide blankets to ensure your comfort during the autumn and winter months and decorate the outdoor space with fairy lights and lanterns to create a magical experience.

Whether you're feeling the river breeze on the outdoor deck or savoring the luxury of the finely furnished interior, you'll feel at ease no matter where you are on the vessel.
