

VESSEL DETAILS

WEOTT III boasts a spacious two-level interior, tastefully decorated with seasonal flowers and other decorative items, carefully tailored to suit your function's requirements.

The first floor features a high-spec sound system, perfect for entertainment or speeches, while the ground floor offers a fabulous dining space that can comfortably host a delicious sit-down meal or serve as an area for guests to sit and enjoy the views through the large windows. We can also add additional seating on the first floor to accommodate larger groups or remove ground floor seating and tables to create a larger standing space.

Guests can relax, mingle, and enjoy iconic landmark views of the London skyline in two outdoor areas. During warm weather, we bring the barbecue on board, providing a fantastic dining option for both small and large groups.

From the refreshing river breeze on the outside deck to the well-furnished and warm interior, you'll feel at ease no matter which part of the vessel you're on.

If you're searching for the perfect venue for your event, regardless of the occasion, your search ends here.
