

VESSEL DETAILS

Day or night, winter or summer, the WEOTT III is the perfect venue for your wedding transfer.

WEOTT III features a spacious two-level heated interior, elegantly adorned with seasonal flowers and carefully selected decor items, all of which can be tailored to meet your specific requirements.

The first floor boasts a high-spec sound system, ideal for entertainment and speeches, while the ground floor offers a splendid dining area that comfortably accommodates a delightful sit-down meal and provides a space for guests to relax while enjoying panoramic views through the expansive windows. If you have a larger group, we can arrange additional seating on the first floor or clear the ground floor of tables to create a more spacious standing area.

Guests can unwind, mingle, and revel in iconic landmark views of the London skyline from two outdoor areas. During warmer months, we even bring the barbecue on board, offering a fantastic dining option. In the winter season, we provide cosy blankets to ensure everyone can enjoy the outdoor deck, no matter the weather.

Whether you're savoring the refreshing river breeze on the open deck or mingling with your guests in the warm and personalised interior, you'll feel at ease, no matter which part of the vessel you choose.
